5. COUNCILLORS' REPORTS (Surrey CC & Tandridge DC)

Claire Blackwell.

There is not much to report on Devolution. For information, Crawley has requested to join Surrey. Likely driven by the leader of Reigate & Banstead. This is of concern due to the amount of debt Crawley may have and also due to social housing allocations. This is not viewed very positively by the councillors.

Next submission regarding devolution is due on 9 May.

Catherine Sayer will give an overview at the APM on 8 May when it is hoped that there may be some more information/clarification, but unlikely.

Cameron McIntosh says it is likely is that government will indicate a preference (likely 2 or 3 authorities – most likely 2 and most likely East/West split) and ask for a business case.

Cameron McIntosh –

- Mobile phone signal on the Chart: CMcl believes there is appetite to get a mast on the Chart. He, the district councillors and parish councillors are all aware of complaints by residents and businesses about the lack of signal in the Limpsfield Chart and rural area. This is an ongoing problem that seems to be coming to a head. CMcl is of the view that we should group together to see if there is something we can push, with the backing if the cabinet member.

There are various high points on the Chart that might be considered, however complicated due to tree coverage, visual aspect and AONB, as well as the vast area of NT land on which masts are prohibited. There is some private land (Titsey, local landowners) including St Andrew's being one of the high points and owned by the Diocese of Southwark which Claire Blackwell believes would be the best location. However, she reiterates that all planning applications are subject to planning permission and assessed against national policy, including taking into account the character of an area, national landscapes (known formally as AONB) green belt, location sensitivity etc. Two applications for mobile phone masts have been refused in the past few years on Ridlands Lane and Ballards Lane.

CMcl would like to know if the Parish would be keen to try to push this forward conversation with MBNL to explore the options for a mast to cover the Chart area – a joint letter from Parish, District and MP. Councillors are in support. Cameron agrees to draft a letter. Michael Tinker would be happy to be the parish councillor contact on this matter, as he is a Chart resident.

- CB asks about pavements in Oxted & Limpsfield – town centre. CMcl says the pavement resurfacing has been delayed due to SGN works planned (but no date yet). Cameron will endeavour to get an update.
- Roadside Rangers work has been very successful and welcome to date and will be continuing.
- Resurfacing from Detillens to Titsey Corner. Date TBA. Permits are in place now.
