

**Proposal for Wild flower area at the top of Limpsfield high Street and at the entrance to Wolf's Row.**

The wild flower areas have been very successful in the past, with lots of positive comments from residents and very important for biodiversity.

Last year the areas were prepared by Will Bistram who turned over the soil so that lots of wild flower seed was still in the ground but the grass did not take over.

I propose doing the same this year.

Planting will take place in late March or early April to ensure a good display in the Summer

Costs

£220 for clearance by Will Bistram

£100 wild flower mix

Total £320
