EH

Dear Sir/Madam

The Limpsfield Village W.I. meet in St. Peter's Church Hall once a month. Every year we vote on Resolutions introduced by members themselves - subjects that affect the whole country and need a push from all W.I. members to make the situation better. This last year we have been looking at defibrillators and have had a talk and demonstration from an expert to show us what to do with the machines should the need arise.

We decided that it would be beneficial to have a defib machine on the outer wall of St. Peters Hall.

To this end we are asking for a contribution to buying a machine. The cost will be around £2,200.

There has been a delay in progressing with this idea in that the outside of the Hall is being updated - re-clad and planning permission taking a long time.

We should be most grateful for any contribution made to this worthwhile project.

Yours sincerely
Elaine Holloway
President
Limpsfield Village W.I.
